

DELETION OF I-UCR PROGRAM DATA

The records retention schedule for the Illinois Uniform Crime Reporting (I-UCR) Program's data submitted by Illinois law enforcement agencies has been modified. Data retention is now limited to current year plus four years. In order to comply with the schedule, data that has been entered in to and is stored in the reporting tool for the years of 2010 through 2014 will be deleted on August 1, 2019. Data bases housing records before the reporting tool was deployed have already been deleted. Beginning in January 2021, the process of deleting the oldest year of data annually will occur.

Agencies are encouraged to review the data listed below scheduled for deletion and download data an agency chooses to retain in-house prior to August 1, 2019. Once deleted, the data will not be retrievable by the agency or the I-UCR Program.

The publication provides index crime offense and school incident annual totals for each agency; however, only state-wide data is available for Hate Crime, Supplemental Homicide Reporting, Arrest Related Deaths, and Officer Non-Fatal Shootings.
